# The Supremo SL Coffee Center: A unique coffee experience

## **ZUG whisks you away to a world full of pleasure**

Most people associate a good cup of coffee with an intensive, pleasant smell and exotic aromas, a pleasure of the senses, a cultivated mood and atmosphere, a way of life and culture – and of course with Italy. Would you like a lungo, espresso, cappuccino or latte macchiato? The new Supremo SL Coffee Center fulfills individual wishes for an outstanding cup of quality coffee. One of the things that play a decisive role in the enjoyment of the coffee is the quality of the water and here the built-in filter in the water tank comes into its own. So you see, you can lean back, relax and enjoy a good cup of coffee with the Supremo SL.

## **Weak or strong?**

With the Supremo SL's ZUG Aroma-Control you can easily prepare the coffee according to your personal taste. You can choose weak or strong and everything in between. This way everyone gets a cup of coffee just the way they like it.

## **The grind makes the coffee**

What makes a good cup of coffee? The right grinding technique is just as important as the quality of the beans and the mix. The consistency of the grind and the bean amount ensures the best end result. The Supremo SL has a new and extremely innovative ceramic grinder that fulfills these prerequisites. The use of high-tensile, high-tech ceramic also ensures a very long service life. And the new grinder has one additional decisive advantage – it is very quiet.

# Supremo SL Coffee Center

## Supremo SL (built-in)

### Front design

### Features

- ZUG AromaControl
- Ceramic grinder
- Fully automatic system for 1 or 2 cups
- Dose programming for 3 different size cups
- Height-adjustable coffee dispenser 80-105 mm
- Illuminated cup tray
- 1.7 litre water tank with filter
- Bean hopper holds 300 g
- Container for coffee grounds for 12 cups of coffee

### Controls

- Programmable brewing temperature
- Programmable pre-brewing
- Programmable grind amount
- Programmable water hardness
- Programmable switch-on/off time
- Energy-saving stand-by mode
- Integrated rinsing programme
- Integrated cleaning programme
- Integrated descaling programme

### Accessories

- Brush
- Brewing system key
- Anti-drip device

### Optional

- Drawer system for installation in a 45 cm recess (see page 17)

### Easy to operate and clean

You can easily and conveniently choose your favourite coffee with the press of a button. The preparation is completely automated. The multilingual plain text display informs you of the current status of the function that is running and offers useful information such as «Fill water tank» or guides you through the «Descaling programme». The new Supremo SL Coffee Center is equipped with a removable brewing system for quick and easy cleaning.

### 100 % integration in the kitchen

The new Supremo SL can be easily installed in a tall unit or, thanks to its slim depth, in a wall cabinet. Like all ZUG kitchen appliances, it is also available in PremiumDesign and can be combined perfectly with a ZUG oven or steam oven.
