

## REFRESH-BUTLER

The innovative fabric care system featuring the world-exclusive photocatalysis process, for gentle, easy care of your favourite clothes at home.

The REFRESH-BUTLER combines the unique photocatalysis process with steam technology to care for high-quality fabrics and shoes. Suits, evening dresses and also coats are gently refreshed, de-creased, sanitised and dried.

The REFRESH-BUTLER impresses with top Swiss quality and an intuitive TouchDisplay. It can be installed as a free-standing unit or as a built-in version with matching cabinet front.

Following extensive trials by the testing institute, the product REFRESH-BUTLER was awarded the Hohenstein quality label «Innovative Technology».

See the REFRESH-BUTLER for yourself in one of our showrooms and advisory centres in Switzerland. To find out more, visit [vzug.ch](http://vzug.ch).

# REFRESH-BUTLER

Providing the ultimate service in gentle care for your clothes.

# The care programmes

Your clothes are cared for gently by the main Refresh programme and the selectable Anti-crease function, together with the additional Drying and Hygiene programmes.

Refreshing steam, lasting photocatalysis and the energy-saving heat pump may be used, depending on the programme selected.

## Refresh

Lastingly neutralises cooking odours and cigarette smoke.

Odour elimination confirmed by:

## Anti-crease

The folds and creases in the elbow or in the crotch or knees in suit trousers are reduced without ironing.

Proven and confirmed by:

## Hygiene

The extra Hygiene programme eliminates up to 99.9% of germs and bacteria.

Confirmed by:

## Drying

Gentle, energy-saving drying of rain-soaked coats and textiles that require special care.

Gentle care tested and confirmed by:

The REFRESH-BUTLER fits in any interior.

The high-quality care system can be installed as a free-standing unit, for example in a walk-in wardrobe. Alternatively, it can be fully integrated with a cabinet front or be built into a wardrobe.
