## Optimal use

The cooking space temperatures and levels given in recipe books are in part unlikely to be optimal for this appliance. The following tables serve as a guide to help you get optimal use out of your appliance.

- Push the original baking tray into the cooking space with the «sloped» side **1** to the back.

-  The entry in the **A** display column only applies when preparing food using the BakeOmatic programme.
- Use the **OK** adjusting knob to select and start BakeOmatic.
  - See also the advice in the **BAKEOMATIC** section of the operating instructions for the appliance.

**Overdrying poses a fire hazard!**

**Monitor the desiccating and drying process.**

- Only use undamaged, ripe fruit, fresh mushrooms and herbs.
- Clean and chop the fruit, mushrooms or herbs into small pieces.
- Line the original baking tray or wire shelf with baking paper, spread the food on them and put in the cooking space at the appropriate level.
- Wedge a wooden spoon between the operating panel and the appliance door, leaving an approximately 2 cm gap open.
- Turn the food at regular intervals to ensure even drying.

A maximum of 3 levels can be used in the cooking space at the same time.

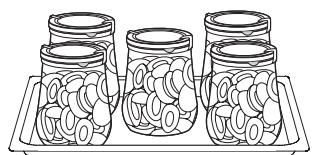

## Preserving and bottling

Bottling involves preserving food in jars.

Place a maximum of 5 jars on the stainless steel tray.

- ▶ Only use undamaged jars that hold no more than 1 litre each.
- ▶ Put the original baking tray at level 1.
- ▶ Fill the jars evenly with the food to be preserved. Close the jars according to the manufacturer's instructions.
- ▶ Place the jars on the original baking tray as shown in the illustration. The jars should not touch one another.
- ▶ Select the  150 °C operating mode.
  - After about 60 to 90 minutes, small bubbles start to rise quickly to the surface of the liquid.
- ▶ Set the cooking space temperature to 30 °C and leave the jars to stand in the cooking space for 40 minutes.
- ▶ Press the  button to switch off the appliance.
- ▶ Leave the appliance door open in the at-rest position.
- ▶ Leave the jars in the cooking space to cool down completely.
- ▶ Remove the jars. Check that the jars are sealed tight.
