PRESS RELEASE

WineCooler V6000: V-ZUG creates space for over 80 wine bottles

The temperature at which a fine wine is served is absolutely crucial for its full enjoyment. That's why the elegant built-in wine cooler from V-ZUG ensures wines are stored at the perfect drinking temperature. The newest model even has enough space to accommodate up to 83 wine bottles.

The aesthetically appealing WineCoolers display your wine bottles perfectly. The two flexible zones for white wine and red wine can be set to exactly the right temperature independently of each other, with a temperature range of 5°C to 18°C. Specially developed compressors ensure the wine is stored in a tranquil, vibration-free environment.

The perfect addition

The WineCooler V6000 makes a handy companion for a side-by-side solution in your own home. This new wine cooler is 178 cm high, has no handle and features a light TouchOpen mechanism. And with SoftClose, it can be quietly and smoothly closed at the touch of a finger too. Up to 83 wine bottles can be stored at the optimum temperature ready to drink whenever the fancy takes you. Extendable wooden shelves make viewing and access easy.

Trusted functions in a classy design

Thanks to its stylish mirror glass front, the WineCooler V6000 will blend in perfectly with any kitchen. The glass door provides protection from UV rays which can impair the wine's quality. Four modern LED lights are used to ensure the interior is evenly illuminated. For a more eye-catching presentation of your bottles, you may wish to leave the light on even when the door is closed, as the lighting does not affect the temperature.

About V-ZUG

V-ZUG is the leading Swiss household appliances brand and has its head office in Zug. For over 100 years, the company in the heart of Switzerland has been developing and producing innovative kitchen and laundry appliances which make everyday life easier while inspiring and delighting users – for a lifetime of enjoyment. V-ZUG has 10 display and advice centres and 16 service centres in Switzerland and is represented internationally in 18 countries. The company has around 1,700 employees worldwide and trains over 70 apprentices. As the market leader in Switzerland, V-ZUG is also committed to improving the economy, society and the environment, in addition to pursuing its own business operations. Together with its sister company Gehrig Group AG and subsidiary SIBIRGroup AG, the owner-operated company belongs to the Metall Zug group.

About Metall Zug

Metall Zug is a Swiss industrial holding company with its head office in Zug and offers a wide range of innovative and sustainable premium and precision products. The group is a technology leader and develops, produces and distributes appliances, machines and solutions through its household appliances, infection control and wire processing business units. The Metall Zug group consists of V-ZUG AG, Gehrig Group AG (Household Appliances Business Unit), the Belimed group (Infection Control Business Unit) and the Schleuniger group (Wire Processing Business Unit). The industrial holding company grew out of the metalwork company Metallwarenfabrik Zug which was established in 1887, and is still primarily owned by the founding family. The Metall Zug group employs around 3,600 people worldwide and is listed on the SIX Swiss Exchange.
