

Invoicing options

for V-ZUG customers

Receive your invoices conveniently and efficiently: we understand that our customers have their own requirements and preferences and want to ensure that they are able to choose a method that suits them. V-ZUG offers you a wide range of options.

Invoicing by e-mail

You will receive invoices without delay straight to your e-mail inbox. E-invoices are a fast, efficient and environmentally-friendly way of sending invoices.

eBill

eBill is a digital, simple and environmentally-friendly way to pay your invoices. You will no longer receive your invoices by post or e-mail – instead, they are now sent directly to your online banking portal, where you can pay them instantly.

PostFinance e-banking

With the digital invoicing process from PostFinance, you can receive invoices from V-ZUG and send your own customer invoices directly from your system or via the eInvoicing portal.

Electronic Data Interchange (EDI)

Are you a V-ZUG partner with a large number of orders and invoices? EDI enables you to send orders, order confirmations and invoices between your company and V-ZUG Ltd quickly and easily. This fully automatic data transfer replaces all printed documentation.

Paper invoicing

Paper invoicing also remains an option. However, we recommend using the digital methods. By using a fully digital invoicing process, we can reduce paper consumption and help to protect the environment. For this reason, V-ZUG will charge a fee of CHF 2.90 for paper invoices as of 1 January 2026. Thank you for your understanding.
