PRESS RELEASE

V-ZUG wins Gold at prestigious Designer Kitchen and Bathroom Awards 2015

V-ZUG was presented with the Gold Innovation in Functionality product award for its Combi-Steam MSLQ oven at Pro Publishing's Designer Kitchen and Bathroom awards, on the 11th November 2015.

At the impressive Supernova venue in London, the best of the UK's bathroom and kitchen market gathered for the prestigious lunch gala and award ceremony. Now in its 13th year, the Designer Awards has become known for recognising and rewarding great kitchen and bathroom design in both products and real kitchen or bathroom projects. Winners of the award were welcomed to the stage at the event to receive the iconic red D-shaped award.

At the ceremony, the V-ZUG table welcomed partners from across the UK hosted by Rhys Evans, Sales Director UK & Ireland, V-ZUG UK. He commented, "It's fantastic that the Combi-Steam MSLQ oven has been recognised in the UK with this Gold award for Innovation in Functionality. It is a pioneering product which is truly beneficial for customers".

The editor of Designer Kitchen & Bathroom magazine and Chair of the Awards' judging panel commented; "The quantity and quality of entries this year has taken us by surprise. In many of the categories, I would say the quality is the highest I've seen in the nine years I've been involved with the Designer Awards".
