PRESS RELEASE

Architects' Darling Swiss Edition 2018: Two gold medals for V-ZUG

The Architects' Darling Swiss Edition 2018 award ceremony took place for the first time in Zurich in mid-March. Which manufacturers do architects prefer to work with in Switzerland? Who has the best solutions and products in different trades and building sectors? Who are the leaders in the areas of innovation, design, sustainability, energy efficiency, customer service and support? Docu Media Schweiz GmbH carried out a survey based on these questions. The architects' favourite building materials manufacturers were chosen in 20 categories and were awarded the coveted trophy made of solid bronze. V-ZUG was honoured with gold awards in the product category "Kitchen and laundry room" and the topic category "Innovation".
