PRESS RELEASE

For floor-unit installation: the new Winecooler from V-ZUG

The taste sensation you get from a good wine not only depends on its quality; temperature and the type of glass used can also play a key role. If these factors are close to your heart as a host and you would like to enjoy wine at the perfect temperature at home, the built-in wine coolers from V-ZUG are the right solution for you. With the UCSL 60, V-ZUG has added a sophisticated Winecooler model to its range which is suitable for installation under a worktop. Fully extendable wooden shelves, two temperature zones, an activated charcoal filter, room for 34 bottles of wine, SoftClose and the Smooth to Open function make this Winecooler unique. Another absolute highlight of this product is the full glass door without handles which opens easily at a gentle touch, its subtle elegance blending seamlessly with the design of every kitchen.

About V-ZUG

V-ZUG is Switzerland's leading brand in household appliances and has its headquarters in Zug. For over 100 years, the company in the heart of Switzerland has been developing and producing innovative appliances for the kitchen and laundry room which make everyday life easier, as well as inspire and excite our customers – for a whole lifetime of enjoyment. V-ZUG has 10 exhibition and advisory centres as well as 16 service centres in Switzerland and enjoys international representation in 18 countries. The company employs around 1400 members of staff and trains over 70 apprentices. As a Swiss market leader, V-ZUG is committed to more than just its own business, for example to the economy, society and the environment. The owner-operated company – together with its sister company Gehrig Group AG and subsidiary SIBIRGroup AG – is part of the Metall Zug Group.

About Metall Zug

Metall Zug is a Swiss industrial holding headquartered in Zug and offers a broad range of innovative, sustainable premium and precision products. The Group develops, produces and distributes technologically advanced appliances, machines and solutions for the household appliances, infection control and wire processing business units. V-ZUG Ltd, Gehrig Group AG (household appliances business unit), the Belimed Group (infection control business unit) and the Schleuniger Group (wire processing business unit) are part of the Metall Zug Group. The industrial holding emerged from the Metallwarenfabrik Zug metalware factory founded in 1887 and is still primarily in the hands of the founding family today. The Metall Zug Group employs around 3600 members of staff worldwide and is listed on the SIX Swiss Exchange stock exchange.
